

# Appalachian Finish Lumber

Our hardwood lumber is sustainably harvested from Earthaven Ecovillage, a permaculture-based intentional community in the Blue Ridge Mountains. Trees were selectively logged using timber-stand improvement techniques, or felled in a 4-acre clearing made for an organic farm. All processing was done on-site or through locally-owned, small businesses within 30 miles of Asheville.

**All materials are kiln-dried, surfaced on all sides, and ¾” in thickness (unless otherwise specified).**

Tulip Poplar “surfaced four sides” Boards Available in all sizes from 1x3 to 1x9 (Actual width is ½” less than nominal width)	\$2.00/bd. ft.
